

SAMY SCEMAMA

NOVEMBER 2019

ASD / AIA MEETING

BOOSTAERO XML STANDARDS

- ❑ BoostAero International created and maintains e-Supply Chain standard of the Aerospace and defense Industry. This standard is used on the AirSupply platform.

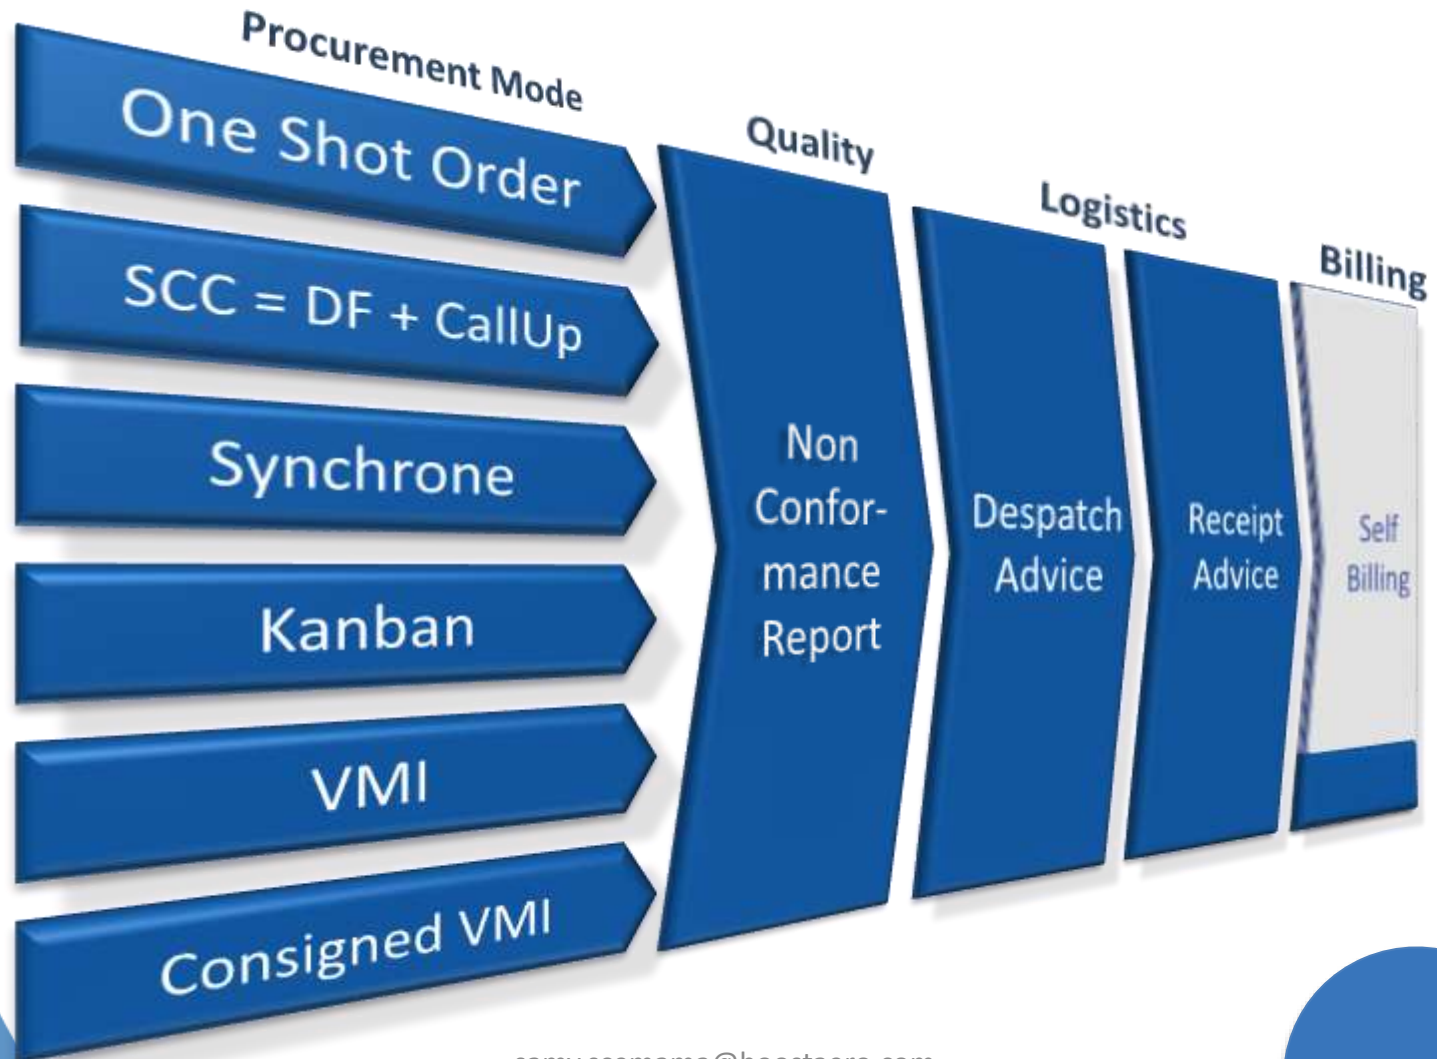

- ❑ The standard includes 4 layers :

- Business Process
- Semantics
- Syntax
- Technical Architecture

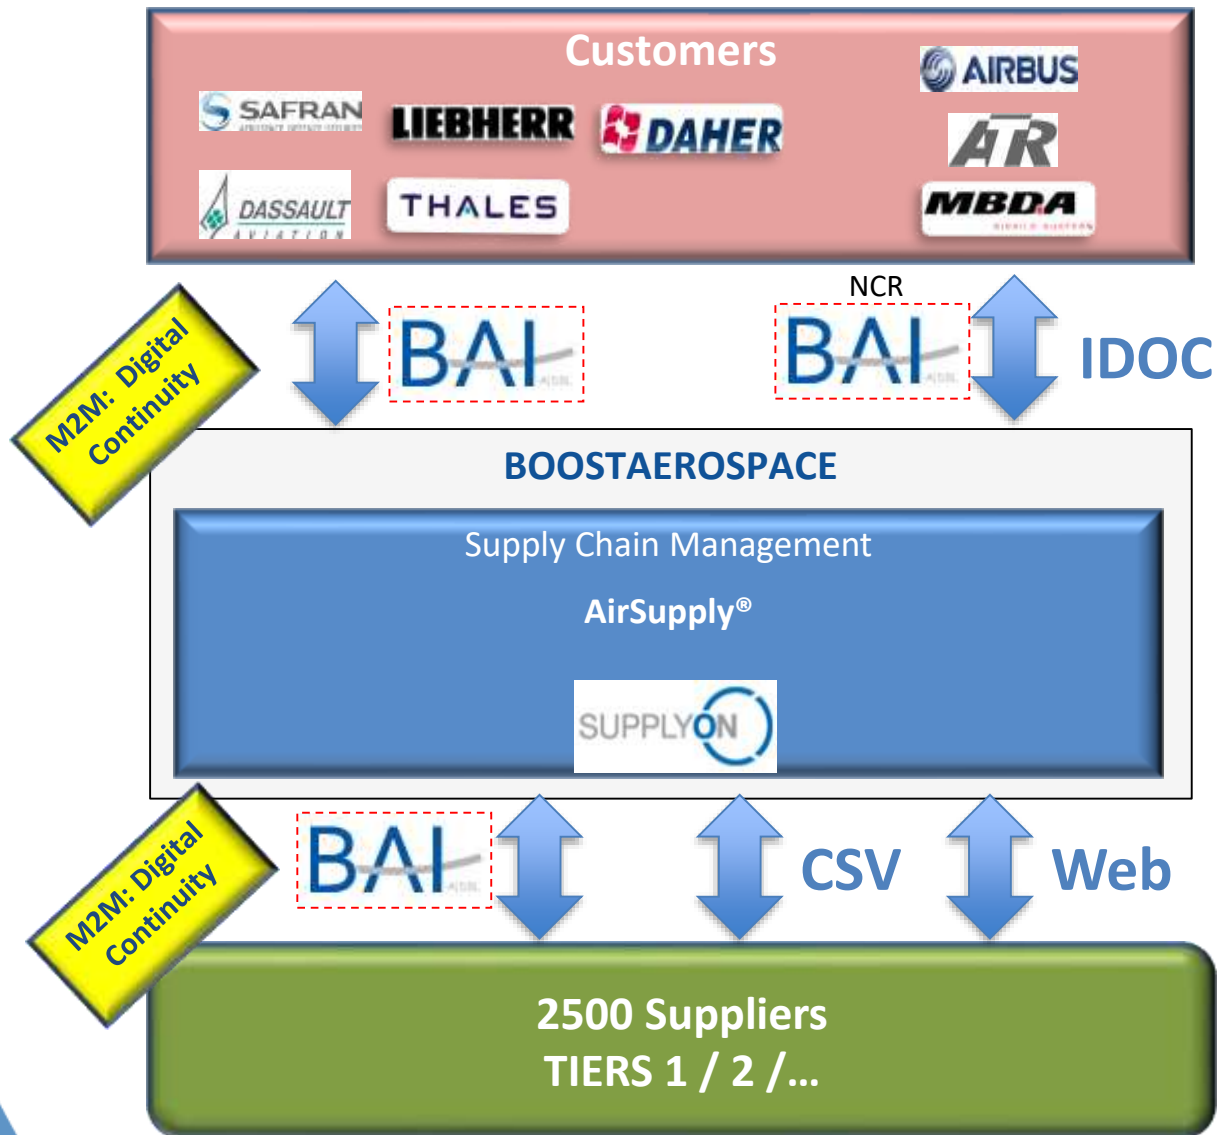

| Business Process |
|--|
| Homogeneity for all business processes |
| Semantic Data Dictionary |
| Homogeneity for all messages |
| Syntax |
| ebXML |
| Secured Architecture |
| Interoperable architectures, AS/2 |

- ❑ As e-Supply Chain standard organization for the Aerospace and defense industry, BAI promotes the Internal Supply Chain excellence as well as e-Supply Chain best practices.
- ❑ BoostAero Int. Is a Non Profit Association

The procurement modes handles by BoostAero Standard and covered in AirSupply

AirSupply and BAI FootPrint
